Thieves Exchange (Holiday Party) Game Rules

Each person who wants to participate needs to bring a wrapped gift worth at least \$20. Each person will draw a number.

The game begins with the person who has number #1. That person will select one of the wrapped gifts, and then open it for all to see (gifts must remain in plain sight until the end of the game)

The person with number #2 then takes their turn. They have a choice: they may either choose one of the remaining wrapped gifts and open it (as did #1), or they may elect to "steal" #1's gift from them. In the latter case, #1 then has to choose a new wrapped gift.

The player with number #3 then begins with the same choice that #2 had: choose a wrapped gift, or steal one of the unwrapped gifts from someone who has already taken their turn.

This pattern continues until all players have a gift.

The following additional rules apply: first, a gift may only be stolen once in a turn. In the above, if #3 were to steal #1's gift, and #1 were to then steal #2's gift, #2 has to choose one of the wrapped presents; he or she can not steal #3's gift.

In addition to only being stolen once in a turn, a gift may only be stolen 3 times in total. The third time a gift is stolen, it is said to be "frozen." It belongs to the person who stole it the third time. To track this, we will have stickers which will be placed on a gift each time it is stolen. A gift with three stickers is frozen. ***

Hey Vic!

Great to hear you today after all these years -- we need to follow up!

URAC folks -- this shall serve to introduce (or reintroduce) Vic Dobroth, WA7DXN, who was a VERY active URAC member back in the '70's when he was stationed and lived on lower Ft MacArthur reservation while in the Army -- we used to contest on 15 meters from his quarters on the post! Please post his info in the next Short Circuit so any old timers still above ground who knew him back in the day can be advised.

Big changes ahead for ARRL board

By Dan Romanchik, KB6NU

The results are finally in. No, I'm not talking about the national mid-term election results. As I'm writing this, some of those votes are still being counted. I'm talking about this year's ARRL board elections. ARRL members have spoken, and they have elected four new faces to the board in what was the most hotly-contested election in a long time.

Three of the five incumbents, plus an incumbent vice director running for the Northwest Division director position, were defeated by candidates calling for more transparency and for changes in the way that the ARRL operates.

Here are the results:

Central Division Director

- Kermit Carlson, W9XA 1,898
- Valerie Hotzfeld, NV9L 1,755

Hudson Division Director

- Ria Jairam, N2RJ 1,292
- Mike Lisenco, N2YBB 1,239

New England Division Director

- Fred Hopengarten, K1VR 1,432
- Tom Frenaye, K1KI 1,383

Northwestern Division Director

- Mike Ritz, W7VO 1,589
- Bonnie Altus, AB7ZQ 1,308
- Horace Hamby, N7DRW 495

Roanoke Division Director

- George Hippiisley, W2RU 1,891
- Dr. James Boehner, N2ZZ 1,365

In the only two contested vice director elections, Mark Tharp, KB7HDX defeated Daniel Stevens, KL7WM and Delvin Bunton, NS7U in the Northwest Division and in the Roanoke Division, William Morine, N2COP defeated John Humphry, W4IM. All newly elected officials will take office at noon on January 1, 2019.

I was kind of surprised here that Valerie Hotzfeld, NV9L, failed to win in the Central Division. She has certainly made many contributions to amateur radio, both in the DX/contest community and on *Ham Nation*. Apparently, though, she made some statements that she was forced to retract, and that probably hurt her campaign, and as some pointed out to me, Kermit Carlson, W9XA, was well thought of in the Central Division and in the VHF/UHF community.

Overall, though, I'm very pleased with the results. Although some of the margins of victory were small—K1VR won by only 49 votes and N2RJ won by 53 votes—I think it's pretty clear that the members want change. Now, it's up to the board, including its newest members to effect that change. As always, I'm ready to help in any way that I can.

When he's not keeping up with ARRL politics, Dan blogs about amateur radio, writes exam study guides (www.kb6nu.com/study-guides), and operates CW on the HF bands, and lately some digital modes as well. Look for him on 30m, 40m, and 80m. Please email him your thoughts about the ARRL at cwgeek@kb6nu.com.
